American Chinoiserie House

A NEW SHOW UNIT AT THE RESIDENCES AT THE ST. REGIS JAKARTA

Step into a sanctuary where timeless elegance merges with refined cultural artistry. Show Unit 7A at The Residences at The St. Regis Jakarta introduces American Chinoiserie House, a breathtaking new interior concept envisioned by acclaimed designer Severiano from Domus Living. Contrasting American sophistication and Chinoiserie charm, the unit celebrates the rich heritage of East Asian aesthetics through delicate floral motifs, lacquered finishes, and distinctive oriental accents.

The result is an artful composition of classic silhouettes, bold textures, and graceful ornamentation that evoke both serenity and grandeur. Every detail, from custom furnishings to thoughtfully curated artworks, tells a story of cultural harmony.

Designed with residents and investors in mind, particularly couples seeking a ready-to-live-in residence or a well considered investment, the unit balances aesthetic appeal with thoughtful practicality. All furniture pieces were selected not only for their design harmony but also for their reasonable value, ensuring long-term usability and style without excessive cost. This makes it an ideal choice for those looking for elegant living with smart investment sensibilities.

The open-plan layout effortlessly integrates modern comfort with intricate design elements, creating a living experience that is as luxurious as it is meaningful.
